The Warrant Subscription Price was determined after arm's length negotiations between the Company and respective subscribers, having considered the market condition, the recent share price performance of the Shares and liquidity of the Shares. The Warrant Subscription Price represents:

- (a) a discount of approximately 11.51% to the closing price of HK\$0.73 per Share as quoted on the Stock Exchange on the Last Trading Day;

- (c) a discount of approximately 10.40% to the average closing price of HK\$0.721 per Share as quoted on the Stock Exchange for the last 10 consecutive trading days up to the Last Trading Day; and
- (d) a premium of approximately 2.54% to the unaudited net asset value of approximately HK\$0.63 per Share as at 30 June 2016 (based on the unaudited consolidated net asset value of the Company of approximately HK\$3,054,489,000 as at 30 June 2016 and 4,844,310,325 Shares as at the Last Trading Day).

The aggregate of the Warrant Issue Price and the Warrant Subscription Price is HK\$0.646775, representing:

- (a) a discount of approximately 11.40% to the closing price of HK\$0.73 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (b) a discount of approximately 9.67% to the average closing price of approximately HK\$0.716 per Share as quoted on the Stock Exchange for the last five consecutive trading days up to the Last Trading Day;

The Warrant Issue Price was determined by the Directors, with reference to the following factors:

- (a) the Directors did not take into account any valuation of the Warrants in determining the Warrant Issue Price due to the fact that the theoretical value is calculated by a formula taking into account certain factors, but it will not take into account the actual circumstances, financial condition, market condition, market position of the Company and the market sentiment of the industry that the Company is involved;

LETTER FROM THE BOARD

- (b) the Directors are of the view that the Warrant Issue Price should be considered together with Warrant Subscription Price as a whole instead of on a stand-alone basis. As disclosed in the announcement of the Company dated 21 September 2016, the aggregate value of the Warrant Issue Price and the Warrant Subscription Price is HK\$0.646775, representing a relatively reasonable discount as compared with the closing price of HK\$0.73 per Share on the Last Trading Day, the average closing price of approximately HK\$0.716 per Share for the last five consecutive trading days up to the Last Trading Day, and the average closing price of HK\$0.721 per Share for the last 10 consecutive trading days up to the Last Trading Day, having considered the market condition, the recent share price performance of the Shares and liquidity of the Shares;
- (c) the Directors consider that the issue of the Warrants is an important means to further solidify the relationship between the Company and the existing substantial Shareholder, CMNEG, and to foster the long-term strategic and collaborative relationship with the ORIX group, while at the same time the Share Subscriptions and Warrant Subscriptions together allow the Company to raise equity financing to redeem the Relevant CB which in turn will strengthen the capital base and financial position of the Company, and may provide additional funds for its future growth and development;
- (d) the issue of Warrants does not have an immediate dilution effect while at the same time it offers an opportunity the Company to further raise additional funds if the warrant holders choose to exercise the rights during Warrant Exercise Periods; and
- (e) the Warrants will be issued pursuant to a specific mandate and will be subject to Shareholders' approval in the SGM and the terms and reasons and basis for the Warrant Subscriptions have been set out in this circular for the consideration by Shareholders.

LETTER FROM THE BOARD

Adjustments to the Warrant Subscription Price

The Warrant Subscription Price is subject to adjustments in accordance with the terms and conditions set out in the Warrant Instrument if any of the following specific events occurs:

- (c) where the Company makes (whether on a reduction of capital or otherwise except pursuant to any purchase by the Company of its own Shares which is permitted by law and by the rules of the Stock Exchange and in accordance with the provisions of the Company's memorandum of association and bye-laws) any capital distribution (including distributions in cash or specie, and any dividend charged or provided for in the accounts for any financial period) to the Shareholders (in their capacity as such) or grants to the Shareholders rights to acquire for cash assets of the Company or any of its subsidiaries;

- (e) where the Company or any other company issues any securities (including any rights, options and warrants) which by their terms are convertible into or exchangeable for or carrying rights of conversion or subscription or purchase for new Shares, and the total effective consideration (as defined in the Warrant Instrument) per new Share initially receivable for such securities is less than 90% of the current market price (as defined in the Warrant Instrument) as at the date of the announcement of the terms of issue of such securities (whether or not such offer or grant is subject to the approval of the Shareholders or other persons);

Whenever the Warrant Subscription Price is adjusted, the Company will give notice to the Warrantheolders and will make available for inspection by the Warrantheolders, among other things, a signed certificate of either an approved merchant bank or the auditors of the Company (the appointment of which is subject to the approval of the Warrantheolders by special resolution) and a certificate signed by a Director setting out brief particulars of the adjustment to the Warrant Subscription Price. The Company will make announcement(s) on adjustment of the Warrant Subscription Price.

As described under the section headed “Equity Fund Raising Activities in the Past Twelve Months”, the Company had conducted fund raising activities and the Company has used and will use the proceeds from such fund raising activities for further development of its solar power plant projects, including the acquisition of specific solar power plants as intended. In terms of other financing options, the Company considered that other pre-emptive fund raising methods, such as rights issue or open offer, generally involves additional amount of underwriting commission and additional costs and time for the preparation and issue of prospectus and the appointment of reporting accountants to report on unaudited pro forma financial information to be included the prospectus. It may take a longer period of time to complete the negotiation of the underwriting terms with potential underwriters when choosing to raise funds through a rights issue or an open offer. With the introduction of ORIX by CITIC CLSA, the Company considered that the Share Subscriptions and the Warrant Subscriptions were the referred available options for the Company at the relevant time.

The Directors consider that the Share Subscriptions, Warrant Subscriptions and the Syndication Loan and/or issuance of the Corporate Bonds as contemplated under the ORIX Subscription Agreement will provide the Company with adequate funds to redeem the Relevant CB which will strengthen the capital base and financial position of the Company, while reducing the Company’s financial expenses and lower its financial gearing level and in turn enhancing the Company’s market competitiveness.

The Group has been actively seeking opportunities to secure fund at reasonable costs, including the issue of Corporate Bonds and obtaining a Syndication Loan as contemplated in the ORIX Subscription Agreement. Furthermore, if any potential investors offer attractive terms and subject to the then market conditions, the Company may also consider pursuing other forms of fund raising exercise for future development of the Company if such fund raising is in the interest of the Company and its shareholders as a whole. Announcement will be made by the Company in the event any concrete fund raising plan arises as and when appropriate.

LETTER FROM THE BOARD

The Directors (including the independent non-executive Directors) consider that the ORIX Subscription Agreement and NEX Subscription Agreement and the transactions contemplated thereunder, including the Share Subscription Price, the Warrant Issue Price and the Warrant Subscription Price (as the case may be), are on normal commercial terms determined after arm's length negotiation between the Company and ORIX and NEX, respectively, and are fair and reasonable and in the interests of the Company and the Shareholders as whole.

The Directors (excluding the independent non-executive Directors whose views are set out in the letter from the Independent Board Committee after taking into account of the advice of the Independent Financial Adviser) consider that the terms of the CM Subscription, including the Share Subscription Price, the Warrant Issue Price and the Warrant Subscription Price, to be fair and reasonable and in the interest of the Company and the Shareholders as a whole.

Mr. Li, Alan, Mr. Lu Zhenwei and Mr. Tang Wenyong, who are directors of CMNEG, abstained from voting on the relevant resolutions to approve the CM Subscription Agreement. Mr. Lu Zhenwei, who is a director of NEX, has also abstained from voting on the relevant resolutions to approve the NEX Subscription Agreement. Save as disclosed above, none of the Directors has any material interest in the transactions contemplated under the Subscription Agreements, and therefore none of the other Directors has abstained from voting on such Board resolutions.

INFORMATION ON THE OUTSTANDING CONVERTIBLE BONDS

As at the Latest Practicable Date, the Company had in issue certain Outstanding Convertible Bonds, among which, the Company will seek to amend the terms of the Relevant CB to allow redemption before their final maturity date given that the amendment to the terms of the Relevant CB is a condition precedent to the ORIX Subscription. The Company will also seek to amend the terms of the Huaqing Bonds to allow redemption before its final maturity date.

Having considered the associated finance cost for redemption of the Relevant CB and the reasons and benefits as set out in the section headed "Information on the Company and the Reasons and Benefits for the Subscriptions", the Company considered that early redemption of the Relevant CB by using the proceeds from Share Subscriptions, Warrant Subscription and the Syndication Loan and/or issuance of Corporate Bonds could improve the capital structure and financial position of the Company, which in turn will conducive to the future fund-raising for the business growth of the Group.

LETTER FROM THE BOARD

The Company will comply with the relevant requirements of the Listing Rules (including announcement, shareholders' approval and approval on amendments of terms of convertible bonds under Rule 28.05 of the Listing Rules) in relation to the amendment of terms of the Relevant CB and Huaqing Bonds for early redemption.

Adjustments to Huaqing Bonds and Power Revenue Bonds issued under general mandate

Pursuant to the adjustment provisions in the terms and conditions of Huaqing Bonds and Power Revenue Bonds, the conversion price of Huaqing Bonds and Power Revenue Bonds will be adjusted as a result of the Share Subscriptions.

Following the adjustment, the number of conversion shares issuable by the Company upon full conversion of the Huaqing Bonds does not exceed the maximum number of Shares that are issuable under the relevant general mandate.

With respect to the Power Revenue Bonds, the number of conversion shares after the adjustment will exceed the maximum number of Shares granted under the relevant general mandate (the “**Maximum Number of Shares**”). In respect of the principal amount of the relevant convertible bonds attributable to the portion of the conversion shares which exceed the Maximum Number of Shares, under the terms of the Power Revenue Bonds, the Company shall upon receipt of the conversion notice after the effective date of the adjustment, instead of issuing the conversion shares, redeem such “affected” convertible bonds in full at an amount in cash in accordance with the terms and conditions of Power Revenue Bonds. In such event, the Company will use its internal financial resources to redeem the exceeded portion of convertible bonds that could not be issued due to the limitation of Maximum Number of Shares within 15 business days of the relevant conversion notice.

Adjustments to Suzhou Zhong Fu Bonds issued under specific mandate

Pursuant to the adjustment provisions in the terms and conditions of Suzhou Zhong Fu Bonds, the conversion price of Suzhou Zhong Fu Bonds will be adjusted as a result of the Share Subscriptions.

Following the adjustment, the maximum number of conversion shares to be issued by the Company upon full conversion of the Suzhou Zhong Fu Bonds will increase and the additional conversion shares to be issued upon conversion of the Suzhou Zhong Fu Bonds will be issued and allotted pursuant to the specific mandate granted by the Shareholders at a special general meeting of the Company held on 9 December 2013.

LETTER FROM THE BOARD

Adjustments to Relevant CB issued under general mandate

In the event that the conversion price of the Relevant CB issued by the Company under its general mandate shall be adjusted as a result of the Share Subscriptions, the number of conversion shares issuable upon full exercise of such convertible bonds will not exceed the maximum number of Shares that are issuable under the relevant general mandate.

Further announcement in relation to the adjustment to the outstanding convertible bonds will be made by the Company as and when necessary.

LETTER FROM GOLDIN

As stated in the Letter from the Board, on 20 September 2016, the Company entered into the CM Subscription Agreement with CMNEG, a substantial Shareholder, pursuant to which CMNEG has conditionally agreed to subscribe for, and the Company has conditionally agreed to allot and issue, (i) a maximum of 756,793,945 Subscription Shares at the Share Subscription Price of HK\$0.5814 per Subscription Share; and (ii) a maximum of 362,948,274 Warrants at the Warrant Issue Price of HK\$0.000775 per Warrant, which will entitle the Warrantholder(s) to subscribe in cash for one Warrant Share at the Warrant Subscription Price of HK\$0.646 (subject to adjustment) during the Warrant Exercise Period. Note: During the financial year 2014/2015, the Group has changed its presentation currency from Hong Kong Dollar to Renminbi. Accordingly, the comparative figures have been restated.

For the six months ended 30 June 2016

For the six months ended 30 June 2016, the Group recorded revenue of approximately RMB452.43 million, representing an increase of approximately 59.76% as compared to the previous corresponding period. Based on the Interim Report 2016, such increase in revenue was due to the increase in the sales of electricity and tariff adjustment which was attributable to the expansion in solar power plants, with the aggregate installed capacity increased significantly by approximately 71.34%, leading to an increase in the electricity generation volume by approximately 65.83%.

For the six months ended 30 June 2016, the Group recorded profit attributable to owners of the Company of approximately RMB248.95 million, which increased slightly as compared to approximately RMB242.91 million as recorded in the previous corresponding period. Based on the Interim Report 2016, the relatively stable performance was mainly due to the net effect of increased fair value gains from certain financial assets and liabilities and the increase in finance costs.

LETTER FROM GOLDIN

As at 30 June 2016, the Group's net current liabilities amounted to approximately RMB736.21 million while the Group recorded net current liabilities of approximately RMB124.35 million as at 31 December 2015. Such increase in net current liabilities was mainly because of the increase in bank and other borrowings that will have their principal repayment on demand within the next twelve months. The net assets of the Group amounted to approximately RMB2,633.18 million as at 30 June 2016 while the net assets of the Group amounted to approximately RMB2,229.95 million as at 31 December 2015.

For the year ended 31 December 2015

For the year ended 31 December 2015, the Group recorded revenue of approximately RMB630.67 million, representing a significant increase of approximately 66.25% as compared to approximately RMB379.36 million as recorded in the respective previous year. Based on the Annual Report 2015, the increase in revenue was mainly attributable to the satisfying performance in the sales of electricity and tariff adjustment. Such improvement was primarily due to the increase in aggregate installed capacity of the solar power plants owned by the Group by approximately 78.63% to approximately 772.4 megawatt for the year ended 31 December 2015 as a result of acquisitions of a total of 12 solar power plants in the PRC during the year, leading to an increase in generation volume of electricity of the solar power plants operated by the Group by approximately 66.24% for the year ended 31 December 2015.

For the year ended 31 December 2015, the Group recorded profit attributable to owners of the Company of approximately RMB360.67 million, which has increased by approximately 43.20% as compared to the profit attributable to owners of the Company of approximately RMB251.86 million recorded in the respective previous year. According to the Annual Report 2015, such year-on-year improvement in profit attributable to the owners of the Company was mainly a result of (i) the increase in operating profit of the Group; and (ii) the fair value gains from re-measurement of certain financial assets and liabilities and bargain purchase arising from business combinations, which were based on the valuation carried out by an independent valuer.

As at 31 December 2015, the Group's net current liabilities amounted to approximately RMB124.35 million while the Group recorded net current liabilities of approximately RMB1,415.87 million as at 31 December 2014. The net assets of the Group amounted to approximately RMB2,229.95 million as at 31 December 2015 while the net assets of the Group amounted to approximately RMB1,483.75 million as at 31 December 2014.

LETTER FROM GOLDIN

2. Reasons for the Share Subscriptions and Warrant Subscriptions and use of proceeds

As described in the Letter from the Board, CMNEG is a limited liability company incorporated in the BVI on 5 May 2004. CMNEG is an indirect non-wholly-owned subsidiary of China Merchants Group, a leading state-owned conglomerate in the PRC. CMNEG is an investment holding company which is engaged in the renewable energy business through its subsidiaries. As at the Latest Practicable Date, CMNEG, together with the parties acting in concert with it, holds 1,172,912,329 Shares, representing approximately 24.21% of issued share capital of the Company and accordingly CMNEG is a substantial Shareholder. It is expected that the ORIX Subscription, CM Subscription and NEX Subscription will take place at the same time. Upon the completion of the Share Subscriptions and the full exercise of subscription rights attaching to the Warrants, the shareholding of CMNEG and parties acting in concert with it will increase to approximately 29.71%. As discussed with the management of the Company, one of the principal reasons of entering into the CM Subscription Agreement is to allow the Company to secure additional financial support and to further leverage the management expertise from CMNEG, being the substantial Shareholder, thereby enhancing the business operation and management efficiency of the Group. Upon completion of the CM Subscription, CMNEG undertakes to the Company that it, together with the parties acting in concert with it, shall remain being the single largest Shareholder within three (3) years after completion.

With reference to the press release published by China Merchants Group on 15 February 2016 (http://www.cmhk.com/main/a/2016/b16/a30516_30598.shtml), CMNEG has entered into a strategic co-operation agreement with The People's Government of Henan Province for co-operation in, among others, photovoltaic new energy. The Group, being one of the sole operating platform of CMNEG for the operation and management of solar power plants, is expected to benefit from leveraging on the well-established corporate network and expertise of CMNEG and to obtain sufficient resources from CMNEG for future business development.

LETTER FROM GOLDIN

As stated in the Letter from the Board, the aggregate gross proceeds from the Share Subscriptions and Warrant Subscriptions will be approximately HK\$1,298.9 million. The estimated net proceeds from the Share Subscriptions, after the deduction of relevant costs and expenses in the amount of approximately HK\$39.8 million, will be approximately HK\$1,259 million. The Company intends to apply the aforesaid estimated net proceeds together with the Syndication Loan and/or the issuance of Corporate Bonds for the following corporate purposes:

- (a) firstly to redeem the Relevant CB in accordance with such terms as agreed between the Company and the relevant holders of the Relevant CB provided that the amount to be used towards this purpose shall not exceed US\$340,000,000 (equivalent to approximately HK\$2,635,000,000);
- (b) secondly to use the remaining amount from such proceeds (if any) after due performance of the Company's obligations under sub-paragraph (a) above to redeem the Power Revenue Bonds provided always that (i) the remaining amount shall be sufficient to enable the Company to fully redeem all outstanding Power Revenue Bonds; and (ii) the holder of Power Revenue Bonds has not exercised its right of conversion under such Power Revenue Bonds by the last day of the six (6) months period following the date of issue of the Power Revenue Bonds;
- (c) thirdly to use the remaining amount from such proceeds (if any) after due performance of the Company's obligations under sub-paragraphs (a) and (b) above to redeem all or a portion of the Huaqing Bonds; and
- (d) lastly to use the remaining amount from such proceeds (if any) after due performance of the Company's obligations under sub-paragraphs (a), (b) and (c) above to finance the development of the future business of the Company.

Assuming full exercise of the subscription rights attaching to the Warrants, it is expected that a further fund of HK\$562.7 million will be raised within the Warrant Exercise Period of three years commencing on the date of issue of the Warrants. Taking into account the costs and expenses of the issue of the Warrant Shares, the estimated net proceeds from the subscription of Warrant Shares will be approximately HK\$562.7 million (with a net issue price of approximately HK\$0.646 per Warrant Share). The Company intends to utilise such additional funds for future development of the existing business of the Group.

LETTER FROM GOLDIN

Redemption of the Relevant CB, the Power Revenue Bonds and the Huaqing Bonds

With reference to the Letter from the Board, the Company will have outstanding Relevant CB, which refer to the then existing convertible bonds issued by the Company with an initial conversion price equal to or below HK\$1.3134 as outstanding on the date of the completion of the ORIX Subscription (which, as at the Latest Practicable Date, includes the convertible bonds set out in items (a), (c), (d), (e) and (f) under the definition of “Outstanding Convertible Bonds” in this Circular, but excludes the Power Revenue Bonds and the Huaqing Bonds). Pursuant to the ORIX Subscription Agreement, it is one of the condition precedents that definitive agreements shall be entered into between the Company and such holders of the Relevant CB to allow early redemption of such Relevant CB before their final maturity date. The Company will seek to amend the terms of the Relevant CB to allow redemption before their final maturity date and comply with the relevant requirements under the Listing Rules (including announcement, shareholders’ approval and approval on amendments of terms of convertible bonds under Rule 28.05 of the Listing Rules) in respect of such amendment of terms of the Relevant CB for early redemption. The Power Revenue Bonds refer to the three year 6.5% secured redeemable convertible bonds in the aggregate principal amount of US\$50,000,000 issued by the Company on 26 August 2016 to Power Revenue Limited, with the initial conversion price of HK\$0.65 under general mandate, which are redeemable by the Company commencing from last day of a six-month period after the issue date. The Huaqing Bonds refer to the three year 6.75% secured convertible bonds in the principal amount of US\$100,000,000 issued by the Company on 29 December 2015 to Huaqing Solar Power Limited, with the initial conversion price of HK\$1.5928. The Company will also seek to amend the terms of the Huaqing Bonds to allow redemption before its final maturity date. It is expected that the redemption of the Relevant CB, the Power Revenue Bonds and the Huaqing Bonds would potentially lead to a saving in future interest expenses of the Group.

As at 30 June 2016, the net current liabilities of the Group amounted to approximately RMB736.21 million, representing a significant increase from the net current liabilities of the Group of approximately RMB124.35 million as at 31 December 2015. With reference to the Interim Report 2016, the Group maintains a relatively high gearing ratio. The gearing ratio of the Group is calculated as net debts divided by total capital. Net debts is calculated as total borrowings (including current and non-current bank and other borrowings, construction costs payables and convertible bonds) less cash and cash equivalents. Total capital is calculated as total equity plus net debts. The gearing ratio of the Group amounted to approximately 79.08% as at 30 June 2016 and approximately 79.05% as at 31 December 2015, respectively. Based on the Interim Report 2016, the Group has bank and other borrowings and convertible bonds repayable within 1 year in the amount of approximately RMB2,704.43 million while the cash and cash equivalents amounted to approximately RMB889.15 million as at 30 June 2016.

LETTER FROM GOLDIN

In light of the high financial cost associated with the Outstanding Convertible Bonds of the Company, we are of the view that the intended use of the net proceeds from the Share Subscriptions, Warrant Subscriptions and the Syndication Loan and/or issuance of the Corporate Bonds to early redeem the Relevant CB, the Power Revenue Bonds and the Huaqing Bonds would reduce the financial burden and financial expenses and improve the existing gearing position of the Group, thereby improving its capital structure and strengthening its capital base for future investment when potential opportunities arise and ultimately enhancing the market competitiveness of the Company.

Financing alternatives

Upon enquiry with the management of the Company, we were given to understand that the Board has also considered other forms of fund raising activities, including but not limited to, bank borrowings and other pre-emptive fund raising method such as rights issue and open offer. Having considered that bank borrowings would result in (i) substantial interest burden for the Group given the considerable size of loan principal, therefore further deteriorating the existing gearing position of the Group; and (ii) lengthy due diligence and negotiation process with the relevant banks as compared to equity fund raising from the substantial Shareholder, we are of the view that equity fund raising would be a prudent way to finance the business growth and development of the Group in the long run. Pre-emptive fund raising exercises such as rights issue and open offer would (i) incur undue administrative workload and costs such as additional amount of underwriting commission and addition costs and time for preparation and issue of prospectus and appointment of reporting accounts to report on unaudited pro forma financial information to be included in the prospectus; and (ii) be more time consuming to complete the negotiation of the underwriting terms with potential underwriters and review relevant documents and liaise with parties such as share registrar, underwriter and other professional advisers such that completion of such fund raising exercises may take a longer period. In contrast, the CM Subscription is expected to incur relatively lower costs in respect of underwriting commission, documentation and professional fees. In respect of the subscription of Warrants by CMNEG under the CM Subscription Agreement, further capital would be raised upon the exercise of the subscription rights of the Warrants. In particular, given that CMNEG is the substantial Shareholder, it is expected that CMNEG will exercise the Warrants under the CM Subscription Agreement when the Company is in need of financial resources to capture future investment opportunities. In light of the above, we are of the view that the CM Subscription and the subscription of Warrants under the CM Subscription Agreement are more preferred and appropriate for the Group to raise fund and are in the interests of the Company and the Shareholders as a whole.

LETTER FROM GOLDIN

With reference to the Letter from the Board, we noticed that the Company has conducted two equity fund raising exercises in the past twelve months, including (i) the issue of 3-year convertible bonds in the principal amount of US\$100,000,000 in December 2015 which raised net proceeds of approximately HK\$774,500,000 of which all of the net proceeds have been utilised; and (ii) the issue of 3-year convertible bonds in the principal amount of US\$50,000,000 in August 2016 which raised net proceeds of approximately HK\$364,050,000 and is yet to be utilised as at the Latest Practicable Date. As stated in the Letter from the Board, the Company has used and will use the proceeds from such fund raising activities for further development of the solar power plant projects, including the acquisition of specific solar power plants as intended. Such intended use of the proceeds raised from the aforesaid fund raising activities is expected to expand and further develop the Group's business. As demonstrated by the significant amount of fixed assets maintained by the Group, which represents approximately 59.68% over the total assets of the Group as at 30 June 2016, we understand that the operation and management of solar power plants, being the principal business of the Group, is highly capital intensive as the solar power plants are high value investments which require substantial amount of financial resources to start up and to fund its operation.

In this connection, we consider the unutilised portion of the aforesaid proceeds will be applied as intended, which is in line with the business strategy of the Group, and we consider that it is fair and reasonable for the Company to raise additional funds from the Share Subscriptions and Warrant Subscriptions for redemption of Relevant CB which would improve the gearing ratio of the Group and accordingly strengthen its capital base.

Taking into consideration (i) the significant allocation of the net proceeds from the Share Subscriptions, the Warrant Subscriptions, the Syndication Loan and/or the issuance of Corporate Bonds for redemption of the Relevant CB is beneficial to the Group; (ii) the remaining net proceeds can serve as financial resources to finance the future development of existing business of the Company; and (iii) the CM Subscription and the subscription of Warrants by CMNEG are the most appropriate means for the Group to raise fund among other fund raising alternatives; we are of the view that the CM Subscription and the subscription of Warrants under the CM Subscription Agreement are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

LETTER FROM GOLDIN

3. Principal terms of the CM Subscription Agreement

As stated in the Letter from the Board, the Share Subscription Price is HK\$0.5814 per Share while the Warrant Issue Price and the Warrant Subscription Price per Warrant Share are HK\$0.000775 and HK\$0.646, respectively. Each Warrant carries the right to subscribe for one (1) Warrant Share at the Warrant Subscription Price. The estimated net proceeds from the Share Subscriptions, after the deduction of relevant costs and expenses, will be approximately HK\$1,259 million. The net price per Subscription Share is approximately HK\$0.5638. The aggregate of the Warrant Issue Price and the Warrant Subscription Price is HK\$0.646775 (the “**Warrant Aggregate Price**”).

The Share Subscription Price

The Subscription Price per Share, being HK\$0.5814 per Share, represents:

- (i) a discount of approximately 20.36% to the closing price of HK\$0.73 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (ii) a discount of approximately 18.80% to the average closing price of approximately HK\$0.716 per Share as quoted on the Stock Exchange for the last five consecutive trading days up to the Last Trading Day;
- (iii) a discount of approximately 19.36% to the average closing price of HK\$0.721 per Share as quoted on the Stock Exchange for the last ten consecutive trading days up to the Last Trading Day;
- (iv) a discount of approximately 15.74% to the closing price of HK\$0.69 per Share as quoted on the Stock Exchange on the Latest Practicable Date; and
- (v) a discount of approximately 7.71% to the unaudited net asset value of approximately HK\$0.63 per Share as at 30 June 2016 (based on the unaudited consolidated net asset value of the Company of approximately HK\$3,054,489,000 as at 30 June 2016 and 4,844,310,325 Shares as at the Last Trading Day).

LETTER FROM GOLDIN

The Warrant Aggregate Price

The Warrant Aggregate Price, being HK\$0.646775 per Warrant Share, represents:

- (i) a discount of approximately 11.40% to the closing price of HK\$0.73 per Share as quoted on the Stock Exchange on the Last Trading Day;
- (ii) a discount of approximately 9.67% to the average closing price of approximately HK\$0.716 per Share as quoted on the Stock Exchange for the last five consecutive trading days up to the Last Trading Day;
- (iii) a discount of approximately 10.29% to the average closing price of HK\$0.721 per Share as quoted on the Stock Exchange for the last ten consecutive trading days up to the Last Trading Day;
- (iv) a discount of approximately 6.26% to the closing price of HK\$0.69 per Share as quoted on the Stock Exchange on the Latest Practicable Date; and
- (v) a premium of approximately 2.66% over the unaudited net asset value of approximately HK\$0.63 per Share as at 30 June 2016 (based on the unaudited consolidated net asset value of the Company of approximately HK\$3,054,489,000 as at 30 June 2016 and 4,844,310,325 Shares as at the Last Trading Day).

As stated in the Letter from the Board, the Subscription Price and the Warrant Subscription Price were arrived at after arm's length negotiations between the Company and the respective subscribers, including CMNEG, with reference to the prevailing market condition, the recent share price performance of the Shares and the liquidity of the Shares.

As stated in the Letter from the Board, the Warrant Issue Price was determined by the Directors, with reference to the following factors:

- (a) the Directors did not take into account any valuation of the Warrants in determining the Warrant Issue Price due to the fact that the theoretical value is calculated by a formula taking into account certain factors, but it will not take into account the actual circumstances, financial condition, market condition, market position of the Company and the market sentiment of the industry that the Company is involved;

LETTER FROM GOLDIN

- (b) the Directors are of the view that the Warrant Issue Price should be considered together with the Warrant Subscription Price as a whole instead of on a stand-alone basis. The Warrant Aggregate Price of HK\$0.646775 represents a reasonable discount as compared with the closing price of HK\$0.73 per Share on the Last Trading Day, the average closing price of approximately HK\$0.716 per Share for the last five consecutive trading days up to the Last Trading Day, and the average closing price of HK\$0.721 per Share for the last ten consecutive trading days up to the Last Trading Day, having considered the market condition, the recent share price performance of the Shares and liquidity of the Shares;
- (c) the Directors consider that the issue of the Warrants is an important means to further solidify the relationship between the Company and the existing substantial Shareholder, CMNEG, and to foster the long-term strategic and collaborative relationship with the ORIX group, while at the same time the Share Subscriptions and Warrant Subscriptions together allow the Company to raise equity financing to redeem the Relevant CB which in turn will strengthen the capital base and financial position of the Company, and may provide additional funds for its future growth and development;
- (d) the issue of Warrants does not have an immediate dilution effect while at the same time offers an opportunity for the Company to further raise additional funds if the warrant holders choose to exercise the rights during Warrant Exercise Period; and
- (e) the Warrants will be issued pursuant to a specific mandate and will be subject to Shareholders' approval at the SGM and the terms and reasons and basis for the Warrant Subscriptions have been set out in this circular for the consideration by the Shareholders.

To assess the fairness and reasonableness of the Subscription Price, the Warrant Aggregate Price as well as the Warrant Issue Price under the CM Subscription Agreement, we have taken into account (i) the recent performance of the Share prices; (ii) the recent market practice in respect of subscription of new shares under specific mandate by comparable companies; and (iii) the theoretical value of the Warrants based on the option pricing model, which are elaborated below.

LETTER FROM GOLDIN

Historical Share price performance

The following chart sets out the daily closing prices of the Shares on the Stock Exchange for the period from 21 September 2015 (being the first trading day of the 12-month period prior to the Last Trading Day) up to and including the Latest Practicable Date (the “**Review Period**”), against the Subscription Price and the Warrant Aggregate Price.

Note: Trading in the Shares was suspended on 21 September 2016 during the Review Period.

LETTER FROM GOLDIN

As observed in Chart 1 above, the closing price per Share during the Review Period was trading within a range from the lowest closing price at approximately HK\$0.54 to the highest closing price of approximately HK\$0.90 with an average closing price per Share of approximately HK\$0.67. It is noted that the Share Subscription Price of HK\$0.5814 is within the range of the lowest and highest closing prices of the Shares during the Review Period and represents a premium of approximately 7.67% over the aforementioned lowest closing price per Share, a discount of approximately 35.40% to the aforementioned highest closing price per Share and a discount of approximately 13.22% to the average closing price per Share during the Review Period, respectively. The Shares were traded within a narrow range throughout a substantial period from 20 January 2016 to 31 August 2016 with an average closing price of approximately HK\$0.60 which is close to the Share Subscription Price. The closing price of the Shares was on a generally decreasing pattern from 23 September 2016 up to the Latest Practicable Date.

Despite that the Share Subscription Price represents a discount of approximately 13.22% to the average closing price per Share of approximately HK\$0.67 during the Review Period, taking into account (i) the Share Subscription Price lies within the range of the respective lowest and highest closing price per Share during the Review Period; (ii) there was a substantial period of time (i.e. from 20 January 2016 to 31 August 2016) that the closing prices of the Shares during the Review Period were close to the Share Subscription Price; (iii) the Share Subscription Price represents a smaller discount of approximately 7.71% to the net asset value per Share; and (iv) the net proceeds raised from the Share Subscriptions and the Warrant Subscriptions would enhance the financial position of the Company as discussed in the above section headed “**2. Reasons for the Share Subscriptions and Warrant Subscriptions and use of proceeds**”, we are of the view that the Share Subscription Price is fair and reasonable.

As shown in Chart 1, the Warrant Aggregate Price is within the range of the maximum and minimum closing Share prices during the Review Period. The Warrant Aggregate Price of HK\$0.646775 represents a premium of approximately 19.77% over the aforementioned lowest closing price per Share, a discount of approximately 28.14% to the aforementioned highest closing price per Share and a discount of approximately 3.47% to the average closing price per Share during the Review Period, respectively.

With reference to the Letter from the Board, the Directors are of the view that the Warrant Issue Price and the Warrant Subscription Price should be considered as a whole and the Warrant Aggregate Price represents a relatively reasonable discount as compared to (i) the closing price of HK\$0.73 per Share on the Last Trading Day; (ii) the average closing price of approximately HK\$0.716 per Share for the last five consecutive trading days up to the Last Trading Day; and (iii) the average closing price of HK\$0.721 per Share for the last ten consecutive trading days up to the Last Trading Day. Further, we noted that the Warrant Aggregate Price represents a premium of approximately 2.66% over the net asset value per Share as at 30 June 2016.

LETTER FROM GOLDIN

Taking into consideration that (i) the Warrant Aggregate Price lies within the range of the respective lowest and highest closing price per Share during the Review Period; (ii) the Warrant Aggregate Price represents a premium of approximately 2.66% over the net asset value per Share as at 30 June 2016; and (iii) the Warrant Aggregate Price has been determined on arm's length basis with reference to the recent performance of the Shares which represents a better reference for the fair value of the Shares, we concur with the Directors that the Warrant Aggregate Price is fair and reasonable.

Comparison of the Share Subscription Price

In assessing the fairness and reasonableness of the Share Subscription Price, we have reviewed the subscription of new shares listed or sought to be listed on the Stock Exchange under specific mandate for fund raising by companies listed on the Stock Exchange, but excluding transactions involving (i) issuance of new shares in consideration of acquisitions of companies and/or equity interests; (ii) issuance of new shares under share award schemes; and (iii) listed companies under prolong suspension, which were initially announced from 20 June 2016, being the first day of the 3-months period prior to the Last Trading Day and up to the Latest Practicable Date and identified an exhaustive list of 16 proposed subscription of new shares under specific mandate (the “**Comparables**”). We consider that a review period of three calendar months prior to the Last Trading Day and up to the Latest Practicable Date is appropriate because the Comparables are considered for the purpose of taking a general reference for the recent market practice in relation to the setting of subscription price of subscription of new shares under specific mandate under similar market condition and sentiments. We consider analysis of comparables any further back in time will run the risk of no longer being indicative of the current market environment. Based on the foregoing, we consider the Comparables are fair and representative samples to represent up-to-date trend of subscription of new shares in the open market which are comparable to the CM Subscription and are adequate for our independent analysis of the Share Subscription Price.

Notwithstanding that the Comparables do not constitute close reference to the Group in terms of principal business, operations and funding requirements, we consider the Comparables can serve as a general reference that reflect the up-to-date trend of the setting of the subscription price under subscription of new shares under specific mandate in the open market. Set out below are the summary of the Comparables.

As shown in Table 2 above, the subscription prices of the Comparables ranged from the maximum discount of approximately 63.23% to the maximum premium of approximately 6.95% over the respective closing share prices on the last trading day or the date of the initial announcement in relation to the subscription of new shares, with an average discount of approximately 22.31% to the closing share prices on the last trading day or the date of the initial announcement. The discount of the Share Subscription Price to the Last Trading Day of approximately 20.36% therefore falls within the range of the Comparables and is close to the average discount of the Comparables. As such, we consider the setting of the Share Subscription Price is in line with market practice and is fair and reasonable.

LETTER FROM GOLDIN

Comparison of the Warrant Aggregate Price

In assessing the fairness and reasonableness of the Warrant Aggregate Price, we have attempted to apply a comparable analysis based on the criteria of (i) companies listed on the Stock Exchange; (ii) involving placing or subscription of unlisted warrants, excluding (a) subscription of bonus warrants or issue of warrants attached to other fund raising activity at nil consideration; (b) transactions involving warrant issuance as consideration; and (c) listed companies under prolonged suspension; and (iii) initially announced within the three months period from 20 June 2016, being the first day of the three months prior to the Last Trading Day and up to the Latest Practicable Date. However, we have not been able to identify suitable comparable companies which fall in the above selection criteria. Thus, we consider the aforesaid comparable analysis is not applicable.

Warrant Issue Price

In addition to the Warrant Aggregate Price, we have assessed the fairness and reasonableness of the Warrant Issue Price with reference to the theoretical value of the Warrants. According to the trinomial option pricing model implemented by Bloomberg, a professional service provider that provides data analytic services to financial institutions, based on the closing price of the Shares on the Last Trading Day of HK\$0.73, the theoretical value of the Warrants is HK\$0.3497 (the “**Theoretical Value**”). The Theoretical Value represents a premium of approximately HK\$0.35 over the Warrant Issue Price of HK\$0.000775.

We have discussed with the management of the Company in respect of the Warrants to be issued under the CM Subscription Agreement and we were given to understand that the issue of the Warrants to CMNEG serves to provide incentive to CMNEG to participate in the CM Subscription, which is expected to motivate CMNEG’s support to the Group’s development. The issue of Warrants under the CM Subscription Agreement is explicitly structured to provide CMNEG the option to exercise the subscription rights attaching to the Warrants within the three-year Warrant Exercise Period, which will also provide the Company with additional fund of HK\$562.7 million upon full exercise of the Warrants by CMNEG.

LETTER FROM GOLDIN

Despite the Warrant Issue Price of HK\$0.000775 represents a significant discount to the Theoretical Value of HK\$0.3497, given that (i) the issue of Warrants forms part of the CM Subscription to incentivise CMNEG to enter into the CM Subscription Agreement; (ii) CMNEG as the substantial Shareholder is keen to exercise the subscription rights attaching to the Warrants when the Group is in need of financial resources; (iii) the Theoretical Value derived from the trinomial option pricing model as discussed above is based on certain assumptions and limitations which may not be fully reliable; and (iv) the Theoretical Value does not take into account the non-listed nature of the Warrants as well as actual circumstances such as financial condition, market position of the Company and market sentiment in the solar and photovoltaic new energy industry faced by the Company, we consider the Warrant Issue Price is justifiable.

We have reviewed other major terms of the CM Subscription Agreement and are not aware of any terms being unusual and material and not on normal commercial terms.

In light of the above analysis, we are of the view that the terms of the CM Subscription Agreement are fair and reasonable and in the interest of the Company and the Shareholders as a whole.

4. Effects on the shareholding structure of the Company

Details of the changes of shareholding structure of the Company as a result of (i) the Share Subscriptions; (ii) the Share Subscriptions and upon full exercise of the subscription rights attaching to the Warrants; and (iii) the Share Subscriptions and upon full exercise of the subscription rights attaching to the Warrants, the Outstanding Convertible Bonds and the Outstanding Options are set out in the section headed “**SHAREHOLDING STRUCTURE**” in the Letter from the Board. We noted that the shareholding of the public Shareholders, being the Shareholders other than (i) CMNEG and parties acting in concert with it; (ii) associate of China Merchants; (iii) the Directors; and (iv) ORIX, will be diluted from approximately 75.47% as at the Latest Practicable Date to approximately 46.00% upon completion of the Share Subscriptions and upon full exercise of the subscription rights attaching to the Warrants whereupon an aggregate of 871,075,858 Warrant Shares will be issuable and allotted to CMNEG and ORIX pursuant to the CM Subscription Agreement and the ORIX Subscription Agreement respectively, assuming there is no other change in the issued share capital of the Company from the Latest Practicable Date up to the later of the completion date of each of the Share Subscriptions.

LETTER FROM GOLDIN

Taking into account (i) the reasons for and benefits of the CM Subscription as discussed in the section headed “**2. Reasons for the Share Subscriptions and Warrant Subscriptions and use of proceeds**”; and (ii) the CM Subscription will enable the CMNEG who is the substantial Shareholder of the Company, to act on the long term interests of the Company and the Shareholders and align the interest of CMNEG with that of the Company and the Shareholders, we are of the view that the potential dilution effect of the Share Subscriptions (including the potential dilution effect to be bought by the CM Subscription) and upon the full exercise of subscription rights attaching to the Warrants is justifiable.

5. Financial effects of the Share Subscriptions and the Warrant Subscriptions

Net assets value

With reference to the Interim Report 2016, the unaudited consolidated net assets of the Group amounted to approximately RMB2,633.18 million as at 30 June 2016. As advised by the Company, the net proceeds from the Share Subscriptions and the Warrant Subscriptions of approximately HK\$1,259 million will increase the cash level of the Group, thereby increasing the net assets value of the Group assuming there is no other change to the balance sheet items since 30 June 2016 save for the changes brought by the proceeds from the Share Subscriptions and the Warrants Subscriptions. In the event that the Warrants are exercised in full at the Warrant Subscription Price of HK\$0.646 during the Warrant Exercise Period, a further fund of HK\$562.72 million will be raised and the net assets value of the Group will further increase.

Liquidity

According to the Interim Report 2016, the cash and cash equivalents of the Group as at 30 June 2016 was approximately RMB889.15 million. The estimated net proceeds from the Share Subscriptions, after the deduction of relevant costs and expenses, will be approximately HK\$1,259 million. Accordingly, the cash and cash equivalents of the Group is expected to increase. As such, the liquidity of the Company will improve.

Shareholders should note that the aforesaid analyses are for illustrative purpose only and do not purport to represent the financial position of the Group upon completion of the respective Share Subscriptions and the full exercise of the Warrants.

LETTER FROM GOLDIN

RECOMMENDATIONS

Based on the abovementioned principal factors and reasons for the entering into of the CM Subscription Agreement, we are of the view that while the CM Subscription Agreement was not entered in the ordinary and usual course of business of the Group, the CM Subscription pursuant to the CM Subscription Agreement is on normal commercial terms, fair and reasonable and are in the interests of the Company and the Shareholders as a whole. Accordingly, we recommend the Independent Shareholders, as well as the Independent Board Committee to advise the Independent Shareholders, to vote in favour of the relevant resolutions to be proposed at the SGM to approve the CM Subscription Agreement and the transactions contemplated thereunder.

Yours faithfully,
For and on behalf of
Goldin Financial Limited
